4LB CLUB HAMMER FIBRE GLASS SHAFT

Product Details

Club (or lump) hammers are fully forged and heat treated with a flat face and chamfered edge for use with cold chisels, brick bolsters, star drills and masonry nails. Fitted with a fibreglass shaft and textured slip resistant rubber grip. Shaft and grip combine to dampen the impact transmitted through to the user's hand and wrist which in turn reduces operator fatigue and the risk of repetitive strain injury (RSI).

Features and Benefits

- Fibreglass shaft dampens impact through the user's hand and wrist to minimise the risk of RSI (Repetitive Strain Injury)
- Textured slip-resistant grip improves user control and comfort
- Head is manufactured from fully forged steel for durability and good impact
- Possesses an anti-vibration design

HI-ACCURACY/HI-PERFORMANCE DIGITAL MULTIMETER

Features and Benefits

- Extra large display for high visibility in any situation
- Integrated tilt stand for hands free operation
- Hold function temporarily stores readings on screen giving you time to record data
- Compact and handheld with hard shell for extra protection against drops and falls

Specification

- AC/DC voltage: 700V and 1000V.
- AC/DC current: 20A.
- Resistance: 20M Ω .
- Capacitance: 200 μ F.
- Frequency: 20kHz.
- Temperature: 760 Ω / 1400 Ω .
- Diode Check: Open Voltage 2.8 V dc.
- Continuity Test: Threshold 30 Ω .
- Dimensions: 195mm x 92mm x 38mm
